WORD MAGIC

An open book with glowing pages, set against a dark background filled with golden stars and sparkles. The book is positioned centrally, with its pages fanning out. The overall atmosphere is magical and ethereal.

The Powers & Occult
Definitions of Words

Introduction

Words are used by people to communicate every day, yet most people still do not realize how words shape their lives and perception. Did you know that most people speak over 7,000 words per day? As of May 2016, there are about 7.4 billion people living on Earth. If you multiply 7,000 words by 7.4 billion people, you get 51,800,000,000,000 or 51.8 trillion words. This means that at least 51.8 trillion words are spoken every day. Even though we hear and speak words all the time, most of us have little or no clue as to how powerful words are.

Words are not just elements of speech or writing, because when words are spoken out loud, they transform into sound, frequency, and vibration. Words also carry information which plays an important role for communication. Without information we will have a hard time learning things and communicating to one another. Because words carry information, sound, frequency, and vibration, they play a very important role in our lives. Furthermore, they can be used to harness the power of energy.

As mankind, we did not always rely heavily on words to communicate, because we used to have a stronger telepathic bond with one another. Due to certain tragic events in our past that caused the higher elements of our DNA to, in a sense, mutate and turn off, many words were introduced by the Dark Forces (groups of self-serving thought-form entities) as hypnotic symbols to manipulate our minds.

The source of the Dark Forces' malevolent behaviors is a cosmic "virus". This virus is not your common virus because it is very intelligent. The main goal of the Cosmic Virus is to infect all living things in the Universe with its psychopathic thoughts and death science ideology. Many people's minds are infected with the psychopathic thoughts of the Cosmic Virus, especially people who have strong psychopathic traits.

Like any virus, the goal of the Cosmic Virus is to drain its host of energy until it dies, and therefore its mission is to cause death and destruction throughout the Universe. The good news is that this virus can only infect us when we live in a state of ignorance, fear, hatred, and irresponsibility. As we learn to live peaceably with one another and heal our bodies and activate the higher elements of our DNA, our frequency will increase beyond the limit of the Cosmic Virus, making us immune to it.

Today, many scientists like to refer to the higher elements of our DNA as "junk" DNA, because they believe these elements have no function. There is nothing "junk" about the higher elements of our DNA, because Nature would never create something that has no role to play in the progression of the Universe. Our junk DNA contains the higher and more powerful elements of our DNA. Because of this, it holds some of the keys to unlocking memories of our true history and activating our dormant spiritual powers (e.g., telepathy).

The reason that our junk DNA does not seem to function is because the frequencies of our bodies are not vibrating in harmony with it, causing it to "turn off". In our current physical condition, turning on all the higher elements of our DNA at once would destroy our health. The current state of our bodies can not handle the high frequency energies that travel through the higher elements of our DNA. To safely activate our junk DNA without damaging our bodies, we need to slowly increase the frequencies of our bodies to the point where they harmonize with the frequencies of our junk DNA. Once this happens, our

junk DNA and bodies will communicate and function properly.

Because the higher elements of our DNA are, in a sense, turned off, our spiritual powers and higher senses are weakened, making it easier for the Dark Forces to use words to deceive us. All the languages of mankind have been severely distorted by the Dark Forces, allowing them to use words as magic spells to manipulate us. However, they can only manipulate us when we do not know how to use words wisely.

If you study the origin and history of words and languages, and their connection to certain secret societies, you should eventually come to the conclusion that all languages are interconnected at a very deep level. Furthermore, you should know that the language system is the Dark Forces' favorite tool to use to cast magic spells on mankind, so they can control our bodies, minds, and souls. By the end of this book, you will know specifically what that means.

Chapter 1

The Powers of Words & the Art of Word Magic

Some spiritual teachings have suggested that the world is made of space (expansiveness and infinity), air (mobility), fire (temperature), water (fluidity), and earth (solidity).¹ These five elements are not based on physical qualities but spiritual qualities. Besides these five qualities of spiritual energy, the world is also made of words, because we live in a world that relies heavily on words to communicate. When words are spoken out loud, they transform into sound, frequency, and vibration, which are some of the fundamental building blocks of matter.

The physical world we live in is made of matter; therefore, it is also made of sound, frequency, and vibration. In a sense, the material world was brought into existence using the power of spoken words. A spoken word has sound, frequency, and vibration, giving it the power to affect how energy manifests itself into physicality. Hence, the biblical saying, “In the beginning was the Word”.

Phonetically, the term **world** sounds similar to the term **whirled**, which is the past tense of the term **whirl**, meaning “to turn around, **spin**, or rotate rapidly”.² Before you were born, you were whirled into existence due to the fact that your

physical body is made of atoms. What do atoms do? They **spin** and rotate very rapidly. This may be why the movie *The Matrix* has a character named Neo. In Latin, the word **neo** means “produce by spinning, **spin**, weave”.^{3 4}

The term **world** also sounds similar to the term **word** and the term **word** sounds like the term **whir**. One of the origins of the term **whir** is the Old Norse word *hvirfla*, meaning “to turn”.⁵ In English, the term **whir** is defined as “to go, fly, revolve, or otherwise move quickly with a humming or buzzing sound”.⁶

The definitions of the words in bold font in the previous two paragraphs are all related to the word **spin**. Why the word spin? Because everything in the Universe spins and we live in a galaxy that spins. The **world/whirled** known as Earth also spins and the people living on it use spoken **words/whirred’s** to create their reality.

The language system is made of words because words have magic powers and are great for enlightening or deceiving you. One of the reasons that words can easily deceive you is because they can be misinterpreted and misunderstood. Furthermore, each letter of a word can be rearranged to hide the word’s deeper meanings. In addition, a word can be given many different definitions to confuse you.

To “innerstand” why words have the power to deceive you, you need to know one of the occult definitions of the word language. To find one of the occult definitions of the word language, you need to split it into three words and study the definitions of the newly created words, so you know what they mean on a deeper level. When you separate the word language into three different words, it transforms into “lan gu age”.

Language = Lan / Gu / Age

“Lan” is the feminine Chinese and Vietnamese name

for “orchid.” The Vietnamese “lân” changes this to the masculine context meaning “unicorn” coming from “Kỳ lân.” When “Kỳ lân” is translated from Vietnamese to Latin, we get the word “unicornis.” The Kỳ lân was a dragon type creature that was said to only protect the noble ones. It was also known as the “Qulin.”

“Gu” is the god of war in the Dahomey mythology. So now we have “Lan,” a monster that protects the noble ones and “Gu,” the god of war. “Age” is the “age” or “ages” of the zodiac. Hence, Lan / Gu / Ages are the “monsters of war that protect the noble ones or “golden gods” (Au-dio) throughout the ages.”⁷

The language system is an effective tool to help us communicate to one another. However, because of our ignorance of the power of words, the Dark Forces (**false gods**) have used it against us to **wage war** on mankind for many **ages**. They have used the language/lan-gu-age system to divide mankind and prevent us from communicating to people who speak a different language. This made it easier for the minions of the Dark Forces to engineer wars between nations and therefore tricking us to fight one another, preventing us from making the real perpetrators liable and responsible for their crimes against mankind.

The Dark Forces are obsessed with wars for the reason that wars cause a lot of death and destruction, and therefore generate a large quantity of fear energy for the Dark Forces to feed on. At the deeper level, wars are sacrificial rituals for generating negative energy and preventing us from increasing our frequency beyond certain levels, making it harder for us to ascend to higher states of consciousness.

In the English language, many words are carefully designed and put together in a way that gives them the power to cast spells. The Dark Magicians are well aware of this which is why they like

to use the English language to trick us to play their “con game” to enslave mankind. Is this hard for you to believe? Read further and I will show you the evidence.

English is the language that the Dark Forces want to use to control the world. This is one of the hidden reasons that most countries are now requiring English as a second language. Even some of the governments of poor countries are urging their people to learn English. The good news is that if we can prevent the minions of the Dark Forces from establishing their one world government, making English as the language of mankind will make it easier for us to communicate to other cultures.

In the occult world, certain words are used along with rituals and sacred geometries to direct and control energy to create certain desired effects. This process of using words, rituals, and sacred geometries to control and direct energy is known as magic or magick. Be aware that I am not talking about the magic tricks you see on television or magic shows. However, many magic tricks do utilize real magic.

Most people will laugh at the idea of magic being real, but if only they knew what magic really is and how magic is used to control them, they would not be laughing. The world is dominated by magic, which is why **governments, banks and religious institutions** are some of the **biggest practitioners of magic spells**. Until you train your eyes to see how magic is used to control you, you will never know how the world really works.

The Controllers who pull the strings of politicians are well aware of how magic works. Many of them practice the art of magic which is why they are sometimes referred to as the Dark Magicians. The problem is that they like to use magic for power and evil purposes, instead of using it to unite mankind and change the world for the better.

The most powerful thing in the Universe is energy. When you

learn how to control and direct energy, you can become one of the most powerful people on Earth. The unlimited power of energy is the reason that the Dark Magicians are so obsessed with the process of controlling energy. The key to controlling energy is magic, which is the art of using sacred sound, sacred geometry, and natural forces to direct and control energy to produce certain desired effects.

What Is Word Magic?

The word **magic** is derived from Old French *magique*, Latin *magicus*, and Greek *magikos*. One of the earliest definitions of **magic** is the “art of influencing events and producing marvels using hidden natural forces”.⁸ Magic has a strong connection to magnetic and electrical energy. Did you notice that the word **magnetic** has the word **magic** in it? Take out “net” in “magnet-ic” and you are left with the word “magic”.

The art of magic is often practiced along with certain words and sacred geometries. The common words that are often used in magic rituals are the words that produce powerful sound tones when spoken out loud. These sound tones have powerful vibrational patterns that can be used to direct and control energy and harness its power.

Sound is able to direct energy for the reason that it carries certain frequency patterns that attract energy to flow in a controllable manner. Furthermore, sound is one of the natural forces used by Nature to create crystalline structures and sacred geometries, which are some of the building blocks of matter. If you want to know and see how sound controls and directs energy to produce sacred geometry, study cymatics and watch these two fascinating short videos on YouTube titled *Cymatics: Sacred Geometry Formed by Sound* and *Cymatics: Science Vs. Music*.

Because you now know what magic is, let us turn our attention

to what words are, so you can learn what the term “word magic” means. A **word** is defined as “a sound or a combination of sounds, or its representation in writing or printing, that symbolizes and communicates a meaning and may consist of a single morpheme or of a combination of morphemes”.⁹

When you put the terms word and magic together, you get the term “word magic”, which means **the art of communicating using sacred sounds and symbols to direct and control energy to produce certain desired effects**. All words have magic properties. However, certain words have more magic properties for the reason that they carry more energy and intention. This is why during magic rituals certain specific words are used.

Word magic can be used for good or evil purposes. The bad news is that the Dark Forces and their minions have a strong control over the language system of Earth, and therefore are able to effectively use word magic to control us. The good news is that when we figure out how word magic works and become **aware** of how it is being used to control us, the magic power of words can not affect us as much.

Why Words Are More Powerful Than Swords

Words are powerful because they carry energy, sound, and frequency, which are some of the building blocks of matter. In addition, they carry information that can be used as knowledge to create or destroy things. When this knowledge is experienced into wisdom, it becomes very powerful and can be used to expand the body’s consciousness and spiritual power. This is why **applied knowledge is power!**

Did you notice that the term words is an anagram for the term sword? Move the letter “s” in the term **words** to the left of the “w” and you get the term **sword**. Words are like swords because they can be used to harm and “cut” you. In a way, words are

more powerful than swords due to the fact that they can harm or heal you at the deepest levels of your being.

In the King James Bible, verse John 1:1, it says, “In the beginning was the Word, and the Word was with God, and the Word was God”.¹⁰ This verse is talking about the force and knowledge of the Universe, which can be expressed through **words** to create **worlds**. A very important information you need to know about the King James Bible and other versions of the Bible is that they are written in **allegories**, so if you read them literally, you prevent yourself from acquiring the empowering knowledge hidden in the allegories.

Another important information you need to know about the King James Bible is that it was translated to English from the original Greek, and therefore when it says, “In the beginning was the Word”, it is talking about the **Source** that created the Universe. Do you need evidence of this? Read further and I will show you the evidence.

The English term **word** can mean a few different things, but when it is translated to Greek, it means **logos**. The word **logos** is defined as “the **source** that controls the universe, the written word or inspiration of God, or a logic and rational argument”.¹¹ In ancient Greek philosophy, the word **logos** means “the controlling principle in the universe”.¹²

Today, the concept of logos can be found in every religion, such as Christianity. To find the concept of logos in Christianity, all you need to do is read certain verses of the Bible. In the King James Bible, there is a phrase in the Book of John that says, “In the beginning was the Word”.¹³ The deeper meaning of the term word is logos, which is “the **source** that controls the universe”. In other words, “In the beginning was the **Source**”. This is the Source that created the Forces of Nature and genetic code.

Another word that you should know its deeper meaning is

universe. The word **universe** is composed of two words, which are **uni** and **verse**. The prefix **uni** originated from the Latin word **unus**, meaning “one”.¹⁴ As for the word **verse**, it means “a line of poetry”.¹⁵ Based on these two definitions, the word universe means “one line of poetry”.¹⁶ A line of poetry usually has words that have allegorical and metaphorical meanings.

To connect the dots, the hidden knowledge within the word universe tells us that the Universe is an abstract reality field made of poetic and magical **words/logos/forces**. In other words, we live in a magical and poetic “play” known as the Universe, and therefore God is the main author and we are the co-authors. Quantum physicists have done experiments proving that the Universe is indeed an abstract or dream-like reality field composed of energy and forces.

Another word that has a strong connection to the term **word** is the term **light**. Light is sometimes referred to as photon. In physics, a **photon** is usually indicated by the symbol **γ**, which is the lower case letter of the Greek symbol **Γ** (gamma).¹⁷ Some etymologists believe that the Greek word **gamma** is where the word **grammar** originated from. In English, **grammar** means “the study of the classes of words, their inflections, and their functions and relations in the sentence”.¹⁸

Grammar is the art of inventing symbols and combining them to express thought; logic is the art of thinking; and rhetoric is the art of communicating thought from one mind to another; the adaptation of language to circumstance.¹⁹

Another origin of the word **grammar** is the Old French word **gramaire**. As described on EtymOnline.com:

late 14c., “Latin grammar, rules of Latin,” from Old French *gramaire* “grammar; learning,” especially Latin and philology, also “(magic) incantation, spells,

mumbo-jumbo” (12c., Modern French *grammaire*), an “irregular semi-popular adoption” [OED] of Latin *grammatica* “grammar, philology,” perhaps via an unrecorded Medieval Latin form **grammaria*.²⁰

The Old French word **gramaire** has a strong connection to the English word **grimoire**. Dictionary.com defines **grimoire** using these exact words: “a manual of magic or witchcraft used by witches and sorcerers”.²¹ The occult definitions of certain words in this section reveal that grammar or the way words are used has a strong connection to magic. They also reveal that words have the potential to direct and control energy. Be aware that light is a form of energy.

In the Bible verse Genesis 1:3 (KJV), it says, “³ And God said, Let there be light: and there was light.”²² In this verse, the Bible tells you that God used **words/logos/sound** to manifest **light**. Keep in mind that the word **light** has a strong connection to the terms **word** and **grammar**. In other words, the Universe was created from light and word/logos/sound. In Greek, the word **logos** is defined as “the source that controls the universe”.²³

The ancient Greek people believed that the powers (e.g., sound) of logos could be expressed through words and be used to create mystical things (e.g., sacred geometry). Have you ever wondered why the **symbols** of corporations are called **logos**? It has to do with magic and sacred geometry! The process of using logos (e.g., source, energy, force, and sound) to create things, such as sacred geometry can be seen in cymatics.

Here is a quote from the New King James Bible, verse Hebrews 4:12, that talks about how powerful words are:

¹² For the word of God is living and powerful, and sharper than any two-edged sword, piercing even to the division of soul and spirit, and of joints and marrow, and is a discerner of the thoughts and

intents of the heart.²⁴
